LA MAISON EXPO

FURNITURE EXPO

Qatar which became frequently visited place of important trade routes throughout history, is a city that also takes advantage of being on the Silk Road. Qatar became the center of knowledge, wisdom and wealth in its time as an important province, acts as locomotive of provinces in its hinterland as an attraction center of sports, commerce, industry and tourism.

Presenting significant contributions to the country's economy, Qatar is now proceeding not only as a modern city but also as an industrial city.

In terms of the furniture sector, infrastructure that will provide training for the workforce has a strategic importance. Qatar has an important position in the region and has a great potential, one of the most important reasons for this is its equipped work force.

Qatar is a rich city and the GDP rate is increasing very fast. Thus it creates enormous opportunities for starting a financial service business. Additionally, there are several services and products that you can offer for different needs of the people.

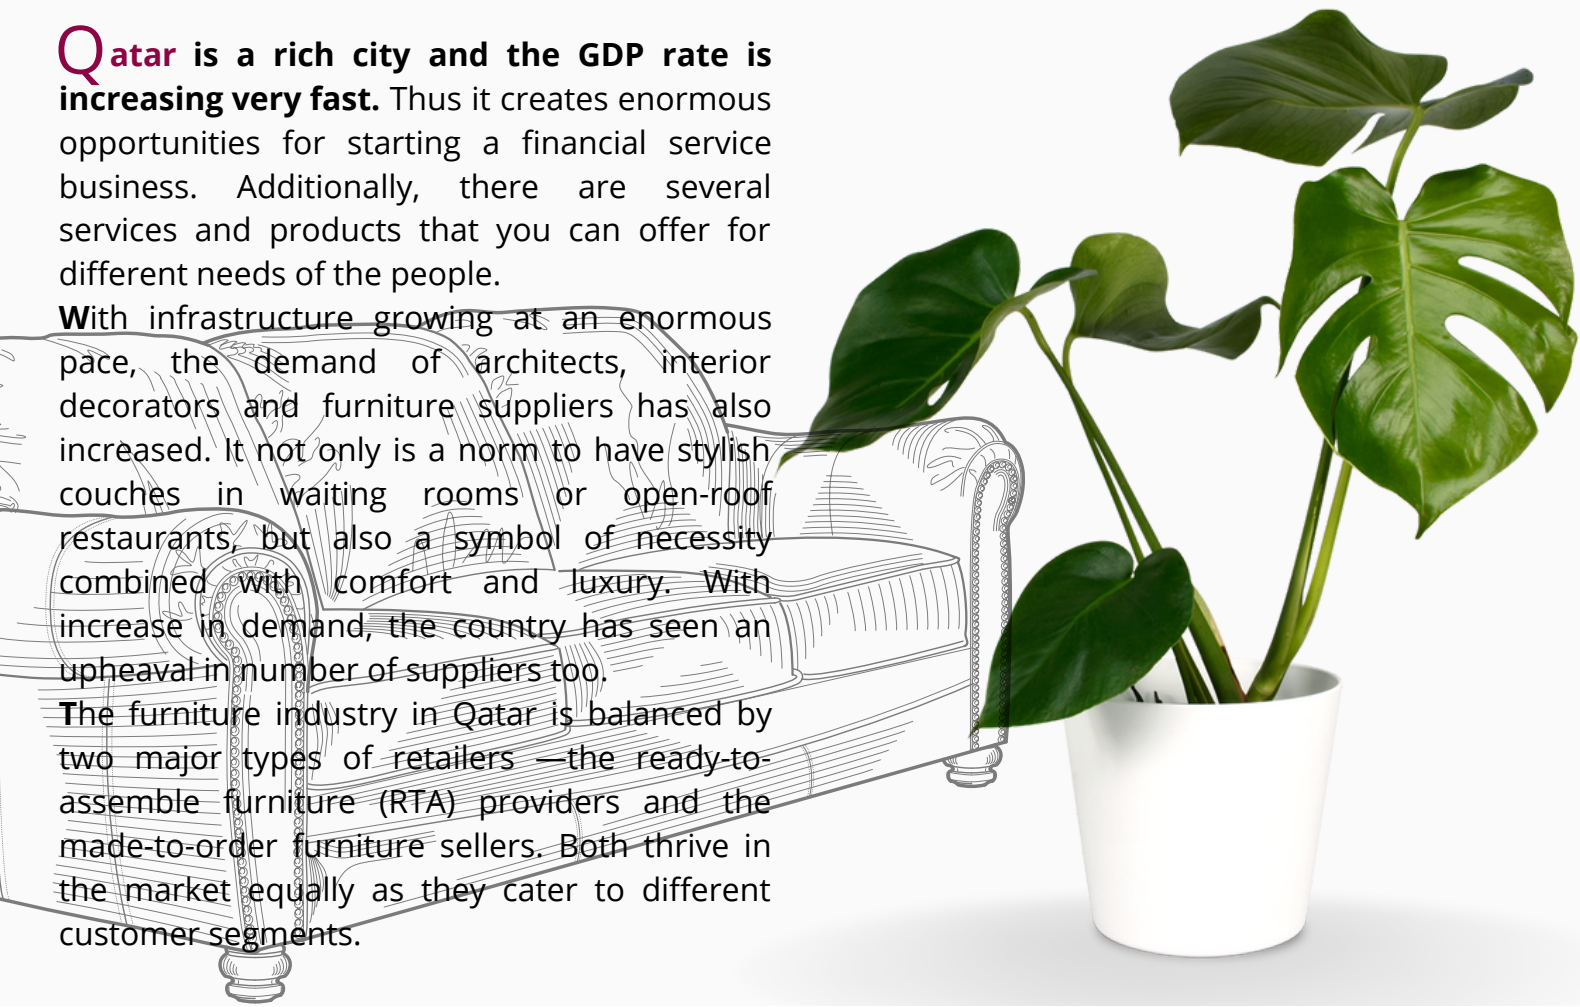

With infrastructure growing at an enormous pace, the demand of architects, interior decorators and furniture suppliers has also increased. It not only is a norm to have stylish couches in waiting rooms or open-roof restaurants, but also a symbol of necessity combined with comfort and luxury. With increase in demand, the country has seen an upheaval in number of suppliers too.

The furniture industry in Qatar is balanced by two major types of retailers —the ready-to-assemble furniture (RTA) providers and the made-to-order furniture sellers. Both thrive in the market equally as they cater to different customer segments.

Many reasons why many choose made-to-order furniture over RTA:

- Value for money
- Flaunt your panache
- Get the furniture that your space needs
- Furniture for a very specific need

With Qatari families buying more than one homes, many youngsters becoming independent, a lot of new business ventures and increased inflow of single/married expatriates every year, the representatives of furniture store outlets speak of their stores' 5-year plan with a tone mixed with confidence in the product and faith in the market.
